## A worthy program

### To the editor:

I am writing to express my sincere and utmost appreciation and thanks for Mr. John Vance and the successful "Dollars for Scholars" program. This unique scholarship program differs from others offered to deserving ConVal graduates. It is a directed effort to reorganize and reward those seniors who have worked so hard to turn their lives around, many of which are dealing with difficult and challenging life issues.

To become a candidate for scholarship nomination, these students have tirelessly redirected their ambitions, their motivations and their ener-

gies toward positive life outcomes. These students and this program are worthy of our support. Next time you pass by one of the "Dollars for Scholars" collection jars located at local businesses, please consider giving a generous donation. These students need our help and support. The adult career mentors assigned by the program to scholarship winners share that the program truly is making an important difference for these young adults.

If you would rather write a check for support, please mail whatever you can to CVCSF, Dollars for Scholars, P.O. Box 372, Peterborough 03458.

I am proud of all ConVal scholarship winners, but these students hold a cherished place in my heart. They are kids with limitless potential and deserve a chance for success. Please donate to this cause.
